Faculty Updation Program
On

Contemporary Cyberthreats and Mitigation

(26th - 30th October, 2026)

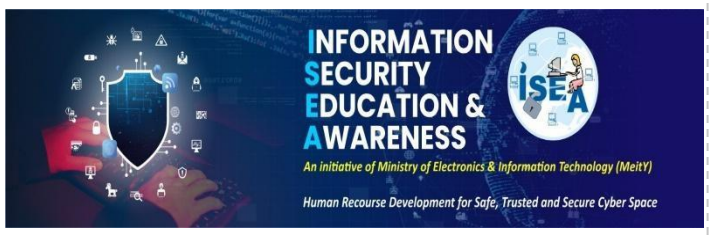

Organized By

Dept. of Computer Science & Engineering, IIT Patna

Dept. of Computer Science & Engineering, GEC Arwal

About ISEA

The **Information Security Education and Awareness (ISEA) Project Phase-III**, approved by the Ministry of Electronics and Information Technology (MeitY), aims to develop human resources for a secure and trusted cyberspace. It focuses on training and certifying Chief Information Security Officers (CISOs), Deputy CISOs, and their teams while grooming students to create indigenous cybersecurity solutions through innovation and research. The project emphasizes advancing education in emerging areas of information security and strengthening India's cybersecurity ecosystem. Additionally, it seeks to build cyber-aware citizens, or "cyber –naagriks ," through mass awareness campaigns, workshops, and certifications. By fostering collaboration between academic institutions and industry, the initiative addresses the need for skilled professionals and informed citizens to ensure a secure digital environment.

About IIT

IIT Patna (Indian Institute of Technology Patna), established in 2008 in Bihta, Bihar, is a premier institute known for excellence in education, research, and innovation. It offers undergraduate, postgraduate, and doctoral programs across diverse disciplines, focusing on interdisciplinary research to address evolving technological challenges. The institute emphasizes emerging fields such as Artificial Intelligence, Cybersecurity, Renewable Energy, and Robotics, supported by state-of-the-art infrastructure and an innovation center. With strong industry collaborations and a commitment to fostering entrepreneurial activities..

About GEC Arwal

Government Engineering College, Arwal (GEC Arwal), established in 2019 by the Government of Bihar, is an AICTE-approved institution affiliated with Bihar Engineering University, Patna. The institute promotes quality engineering education, practical learning, and skill development through modern laboratories and academic facilities.

How to Reach: Arwal is well connected by road via NH-139**, located** 55 km from IIT Patna**. J**ehanabad Railway Station **is about** 35 km away**. The** GEC **is just a** 5-minute e-rickshaw ride **from the** Arwal Bus Stop**.**

About Program

The Faculty Updation Program on Contemporary Cyberthreats and Mitigation is an intensive academic and technical program designed to enhance faculty awareness and understanding of emerging cybersecurity threats, attack methodologies, and modern defense mechanisms. The program aims to bridge the gap between theoretical cybersecurity concepts and their practical applications in protecting contemporary digital infrastructures. Through series of expert sessions, technical discussions, demonstrations, and interactive activities, participants will be introduced to evolving cyberthreats such as malware, ransomware, advanced persistent threats, and attacks targeting AI models The program will also focus on practical mitigation strategies, security best practices,The program will also focus on practical mitigation strategies, security best practices, incident response, and emerging cybersecurity technologies.

Accommodation

A limited number of shared guest rooms are available.
Please contact Dr. Pranav Kumar
Email Id- **pranav.1989@gov.in**

Organizing Committee

PATRON

Prof. Amit Patra
Director, IIT Patna

CONVENER

Prof. Somanath Tripathy
CSE Department, IIT Patna

COORDINATOR

Prof. Jimson Matthew
CSE Department, IIT Patna

Dr. Pranav Kumar
CSE Department, GEC Arwal

Participation

Physical Mode Program: The program will be conducted in physical mode to enable better interaction, foster meaningful discussions, encourage collaborations.
